

## RESOLUTION II – PEOPLE'S REPUBLIC OF CHINA

THEME: CONFLICT AND INTERNATIONAL SECURITY

CONCERN: THE DECREASE OF CRIME RATE THROUGH SURVEILLANCE CAMERAS

THE GENERAL ASSEMBLY,

- Realizing that the installation of facial recognizing security cameras in China generates a rise of criminal arrestations, with more than two thousand fugitives arrested in two years,
- Noting that the security assures the wellbeing of the population and the good functioning of a society,
- Observing that the crime rate is increasing in western nations such as France, with 845 homicides per year,
- Pointing out that the United nations preach for the security of all,
- Convinced that most states are starting to individually fight against climate change and that the funds for this cause aren't as necessary anymore,
- Proposes That the United Nation dedicates a part of their funds for the security of all;
- to decrease the funds related to the United Nations Development Program;
  - that these funds will then be redistributed to install surveillance cameras produced in the People's republic of China;
  - to start the installation in bigger cities and thus efficiently secure the world.
