

RESOLUTION XV – REPUBLIC OF POLAND

THEME : SOCIAL AND POLITICAL RIGHT

CONCERN : PROTECTION OF THE RIGHT TO LIFE

THE GENERAL ASSEMBLY,

- Regretting the crimes perpetrated against millions of human being,
- Reminding that every human being has the right to life as proclaimed in article 3 of the Universal Declaration of Human Rights and in article 6 of the International Covenant on Civil and Political Rights,
- Noting with regret that more and more countries are legalizing abortion,
- Strongly disapproving the resolution adopted by the UN on the 22nd of June 2017 denouncing abuses and discriminations against women, but omitting the criminal character of abortion and implying the recognition of abortion as a method of family planning,
- Observing that laws authorizing abortion in the case of handicap violate articles 4, 5 and 8 of the Convention on the Rights of Persons with Disabilities,
- Underlining that it is better to invest money to help women facing an unexpected pregnancy to keep their baby as does already the flandre initiative “Een buddy bij de wieg” and thus save life of a great number of babies instead of sentencing them to death
- Proposes to countries which show a minimum of humanity to protect their future generations by only authorizing abortion in the case of rape or physical danger for the mother.
