

# RESOLUTION XV – REPUBLIC OF YEMEN

THEME : CONFLICTS AND INTERNATIONAL SECURITY

CONCERN : MARITIME BROTHERHOOD AND ECONOMIC ALLIANCE - THE ADEN TRIANGLE

THE GENERAL ASSEMBLY,

- Deeply alarmed by the scale and the length of the armed conflict within the Republic of Yemen,
- Fearing the continued deterioration of living conditions and the humanitarian situation since 2014 in Yemen,
- Aware of the existence of piracy in the Gulf of Aden,
- Considering the actual inefficiency of the humanitarian assistance provided in many conflict areas,
- Decides
- the creation of a UN force, the Blue Tricorns, aimed at redistributing by the sea essential resources (food, drinks, medicines) in areas with difficult access ;
  - a reform of the international maritime law, allowing the taxation by the Blue Tricorns and their associates of goods travelling through the Exclusive Economic Zones to help the poorest people ;
  - a joint reform of Yemeni, Somali marines and pirates that are ragging off Aden in a corsair force for humanitarian, economic or social purpose associated with the Blue Tricorns. This force will ensure an effective protection of merchant ships and an egalitarian redistribution for the members of the alliance ;
  - the creation of a training center for piracy funded by the alliance on the island of Socotra, in which will be formed the Blue Tricorns.
